### **Knowledge Report**

---

Vanessa Muñozcano  
Reports Officer RTC

Recently after sending two *Things That Shouldn't Be* reports to Reports Officer RTC I was responding to with the attached letter.

The problem with the letter is that it does not refer me to LRH but to an event.

This is a violation of HCO POLICY OF 7 FEBRUARY 1965, KSW Series 1.

All 10 points.

The only correct admin tech in Scientology is written by only LRH.

I am supposed to see and read this tech for myself not on a via.

This is also covered in HCOB 16 April 65 Issue 1 – **The “Hidden Data Line”**

*“And on tech and policy, it's equally true. If it isn't in an HCOB or an HCO PL or recorded on a tape in my voice, it isn't tech or policy.”* – LRH

An event is a via at best.

If I am incorrect in my *Things That Shouldn't Be* Report I do not mind being given the correct data. That correct data however must be direct LRH.

I have always viewed RTC as the most standard admin org as it is their job to enforce 100% LRH per my experience and per what is on the web site. I was completely surprised to get such a response and hope to receive one that has LRH data that pertains to my *Things That Shouldn't Be* Report.

This is true,

John Aaron Williams
